To Whom It May Concern:

Hello,

My Name is Raul Sosa a graphic designer with a background in the fine arts. Over the years I have learned many programs and with years of experience I can do most anything requested of me. As it should, I have experience using the Adobe Creative Suit on both a Mac and Windows platform.

My skills range from traditional paintings such as oils and acrylics to graphics and web design. I am knowledgeable of HTML/CSS, some PHP and JavaScript and have dabbled into the world of 3D Studio Max.

Starting in 2006, I have participated in various art expos and events throughout New Jersey which includes the Du'cret Art Show, the Brotherhood Sisterhood contests, Hudson Cradle Contest, The Yam contest and many more.

You may be asking; what makes me so special from the rest? Although I am not perfect and as a designer I always find myself learning new things I find that I have the ambition and drive to create design. Art is my passion, my desire to grow in this field tends to create innovative designs and brainstorming even if following created standards.

They say a picture is worth a thousand words in that case, what do you say to visiting some of my work? I invite you to take a look at my online portfolio at www.friedarts.com or behance.net/rsosa12. If you like what you see please leave a message, suggestions are always welcomed. Or perhaps you may prefer speaking in person? In that case you are always welcome to give me a call at the number above.

Sincerely,
Raul Sosa
